DETERMINING MODEL NUMBERS

HOW TO DETERMINE THE MODEL NUMBER. WHAT DO THE LETTERS AND NUMBERS MEAN?

GT = 30" machine **GB** = 42" machine

36 = up to 300 lbs. of ice per 24 hours (GT only)

56 = up to 500 lbs. of ice per 24 hours

106 = up to 1000 lbs. of ice per 24 hours (GB only)

 $I = 115 \, \text{Volt}, 60 \, \text{Hz}$

4 = 208-230 Volt, 60 Hz

7 = 208-230 Volt, 50 Hz ***

A = Air Cooled

L = Liquid Cooled (water)

R = Remote Cooled

(GB1064, GB564, and GT564 only)

C = Full Cube

HK = Half Cube

K = Kublet

All Remotes require a separate remote condenser and lines sets to connect the 2 pieces of equipment together.

OUR HISTORY

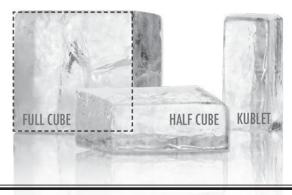

Founded in 1920 in Dayton, Ohio, KOLD-DRAFT's original name was Uniflow for the type of pumps manufactured. In 1926, the plant was moved to its current location in Erie, Pennsylvania. It was from this location that KOLD-DRAFT's reputation for innovation and pure dependability began.

In 1955, KOLD-DRAFT began producing automatic ice machines. Using a unique evaporator and water plate system, KOLD-DRAFT's design produced perfect, pure, clean, hard ice cubes—every time. The "upside down" horizontal evaporator was the key. Water is shot up into the evaporator cells at an incredibly high rate of speed and freezes from the outside in.

This system washes out minerals and foreign substances before the water freezes, producing pure cubes that melt slower. Slower melting ice brings drinks closer to the temperature of the ice without diluting them, keeps food colder longer, and lasts longer in coolers.

World-wide, the finest restaurants, hotel chains, mixologists, bartenders and cocktail enthusiasts call for beautifully crafted ice as the starting point for their food and beverages. Ice is the starting point of any beverage. With KOLD-DRAFT ice as the foundation, any recipe can be fabulous. Kold-Draft machines are engineered to give you 99.9% pure ice.

ICE IN ITS PUREST FORM

FULL ICE CUBE

Few brands have achieved iconic status in ice. Our machines produce the exclusive full cube. The only true square cube in the industry. It's larger and harder than all other ice.

HALF ICE CUBE

Kold-Draft's half cube is exactly half the size of the full cube. The half cube provides excellent liquid displacement. The half cube is the right size cube for every purpose.

1¼''×1¼''×5%''

KUBLET

Kold-Draft's kublet is exactly half the size of the half cube. The kublet is an all-purpose cube for usage in all types of beverages.

5%''×5%''×114''

LARGE CUBE

Kold-Draft's large cube is a unique shape. The large cube is an all-purpose cube for usage in all types of beverages. It is only made from our Cocktail Series.
