## FREE MATCH OASIS HYPER SERIES

WORKS WITH CONTROLLER,  
KJR-12B/DP(T)-E-1A

Any of these Free Match systems can be matched with the Indoor Free Match on the following page.

**Warranty - 7 Year Parts, 7 Year Compressor**

**Low Ambient Cooling Function** - A special design allows the unit to operate down to -15°C (-30°C\*). With low ambient cooling function, the outdoor fan speed can be changed according to outdoor temperature and the AC can run smoothly under the temperature as low as -15°C (-30°C\*). When operating in low ambient conditions (-15°C\*), unit capacity will be reduced.

\* Free Match Oasis Hyper Series only

## FREE MATCH

Outdoor models are designed to accommodate from 12,000 BTU to 48,000 BTU. You have a choice of High Wall, 4-way Cassette, Ducted or Console models. Some indoor models can also accommodate wire or remote control.

**KoolKing™**

### Low Ambient Cooling Function

A special design allows the unit to operate down to -15°C.

With low ambient cooling function, the outdoor fan speed can be changed according to outdoor temperature and the AC can run smoothly under the temperature as low as -15°C. When operating in low ambient conditions, unit capacity will be reduced.
